JAZZ DEMORALIZES PEOPLE

"Is Fast Becoming National Anthem of America," Says Musician.

By International News Service. New York, May 29.—"Jazz, reeking of crime and sexual appeal, is rapidly becoming the national anthem of America," William Van de Wall, noted musician, declared to International News Service.

"A nation is just as great as its music," explained Van de Wall. "Heaven pity America if her standards of art and morals are to be judged by the weird syncopations of the 'Countdown Blues,' sample of present popular taste."

"My experiments with delinquency, insanity and crime all show that jazz brings out the worst in such people; music of Rubenstein, Wagner and other composers brings out their best side."

12,500 WORDS SENT DAILY

Many Stories Given Missourian By International News Service.

The International News Service, through its full-time wire service which it has supplied to the Missourian during Journalism Week, has ticked off approximately 75,000 words in the form of news stories. S. J. Goodfellow, operator, says that a conservative estimate would place the number of words sent daily at about 12,500.

The service started at 7 o'clock in the morning and was continuous until 5 o'clock in the afternoon with the exception of a half hour from 11 to 11:30 o'clock and a few ten-minute rest periods scattered through the day.

Stories which the Missourian has received over the wire from the International News Service have dealt with every conceivable subject from flappers to feminists, politicians to pups, and from murder to moonshine.

But then, even the "oldest inhabitant" could discuss quite a few subjects with 75,000 words.
